Step 1: Tune In & Tune Up

Teams complete a unique self-assessment called iStar™ that generates a holistic positive self-portrait and a digital badge. Everyone meets in a private online team space to share and grow together.

Step 2: Practice

Teams practice key soft skills in the co-creation of positive visual symbols of the team's alignment, purpose, and context. These artifacts continue to have aspirational value throughout the team's life.

Step 3: Bridge

Teams use the a Team Alignment Plan™ to bridge lessons learned and soft skills identified to creating starting a project on the best note.
